## “Orvia is the new benchmark in contemporary banquet and conference chairs”

Designed by Peter Roth, the Orvia has achieved the FIRA Ergonomics Excellence Award.
Melding the latest innovative design with a unique asymmetric aluminium extrusion to create the illusion of slender elegance, whilst retaining the inherent strength for which Burgess chairs are renowned, the world over.

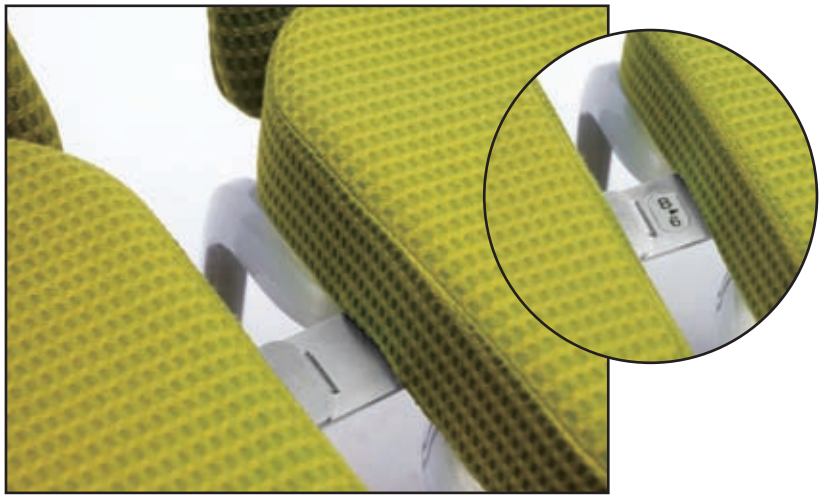
## "Five ergonomic back shapes and a visually refined top-rail"

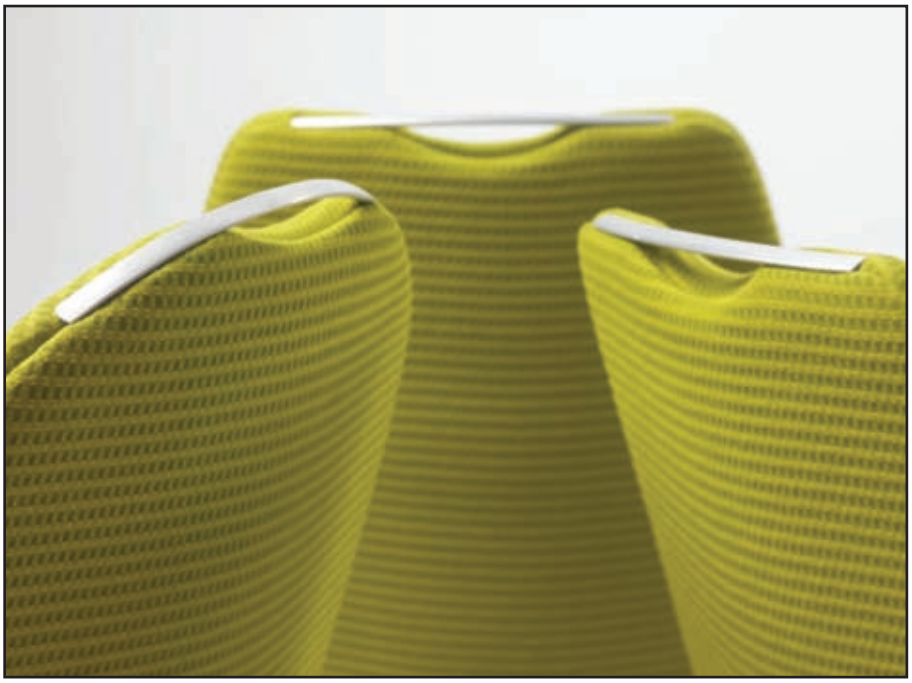
The Orvia range comes in five contemporary back shapes, with or without an optional top-rail.
The top-rail uses a new extrusion which is refined in visual terms nesting subtly into the top of the upholstery, and is ergonomic for handling.

The armchair and task chair can also be ordered in all five back shapes.
So there really is a choice!

Add a T after the model number for the top-rail e.g. 12/3T
Add an A after the model number for the armchair e.g. 12/3A
Insert a 1 after the / for the task chair e.g. 12/13A



Optional Extra
The chairs link using a simple retractable linking plate
A numbering system is available as a further option



The top-rail is an optional extra

12/5T

The uniquely designed geometry for the underframe ensures the chair can be stacked 10 high

# Technical Information

The flexing and contoured upholstered back with lumbar support creates the most comfortable solution for conference and dining

Great attention has been paid to the visual impact of the underframe, and for this reason the leg frame is less visible

Elegant arms make a functional and stylish feature

The ergonomically designed seat cushion is multi-contoured providing greater support and a generous seating platform

Specially designed clear stack buttons guide and retain the chairs' position for increased stability

Unique asymmetrical aluminium extrusion which creates an illusion of slender elegance

The glides are moulded in clear plastic

A detachable writing tablet with rotary action is also an option
Fittings must be specified at time of order

**Ergonomics Excellence Award**

In collaboration with the Furniture Industry Research Association (FIRA) and their leading Ergonomics Consultant, Levent Caglar, the comfort of the Orvia chair is world class. The chair has achieved the FIRA Ergonomics Excellence Award.

**Made in Britain**

We are proud to say that for over half a century we have made all our chairs and tables to exacting standards in our West London factory.

**Environmental Policy**

As a leading industrial enterprise, we recognise our responsibility to the environment and are commited to achieving best environmental practice.

To this end we actively ensure that the environmental impact all of our materials, processes and products is reduced as much as possible or eliminated. The company is certified to ISO 14001 as well as having membership to 'Club Green', the highly acclaimed initiative run by FIRA.
