

burgess furniture

Issue date: April 2013

The BuffetCube is a highly flexible buffet display stand system available with either high pressure laminate or laminated glass tops and folding underframes. There are also different frame heights that will allow you to create an interesting 'buffet landscape'.

The underframes are available in a variety of solid powder coated finishes or chromed. The laminated tops with matching ABS edges are available in a range of different colours. Other edge options such as bull nosed and hardwood leading are available and may have an extra cost.

If you choose the glass option, this will be made of 10.8mm laminated glass with an opaque finish and a 'Mint' coloured polyurethane moulded edge available for 750 x 750mm and 900 x 900mm square top options only.

SHAPE AND SIZE OPTIONS
